RATIO RISK SERVICES

AVAILABLE NOW:

Fully Customizable Pandemic Planning Guide Tailored for Your Parish

Preparing and planning for the unexpected doesn't have to be a stressful time. Resources exist and comprehensive guidance is available with our Pandemic Planning Guide.

Ratio Risk Services has always been at the forefront of developing resources to ensure your Parish is prepared and protected when crisis hits. Dating back to 2009 with the publication of the H1NI Flu Pandemic Planning Guide, the team at Ratio Risk has supported houses of worship in their pandemic planning needs.

With the emergence of COVID-19 in 2020, the comprehensive Pandemic Planning Guide has been updated to reflect the ongoing implications of the current situation. Our COVID-19 Pandemic Planning Guide is fully customizable, specifically tailored to your Parish's unique needs and specific operations, and aligned with the local and state guidelines of your Parish.

Essential benefits of the COVID-19 Pandemic Planning Guide include, but are not limited to:

- Fully customizable content based on the specific needs and operations of your Parish
- The dynamic guide is considered a 'living' document, in that:
  - Contents can be easily modified as pandemic implications expand and contract, and circumstances evolve.
  - As state and local mandates are amended, the planning guide can be updated to reflect areas impacting your Parish.

Protect your Parish.

Prepare your parishioners with our COVID-19 Pandemic Planning Guide.
